Dear Mr. Fisher:

We represent IntraCom, Corporation in its intellectual property matters. In that capacity, we filed a patent application which included Mr. Kendyl A. Roman as an inventor. We understand that you represent Mr. Roman. We have received the Notice to File Missing Parts of Application from the U.S. Patent and Trademark Office for the above-captioned patent application. Accordingly, we are attaching formal documents relative to this application for Mr. Roman to sign. These formal documents include a Declaration/Power of Attorney and an Assignment. We are also attaching a copy of the application as filed. Mr. Roman should sign the Declaration/Power of Attorney first and then execute the Assignment document in the presence of a notary public. Once these documents are signed by Mr. Roman, please return them to our office in the attached postage-paid envelope. We will then see to it that they are filed with the U.S. Patent and Trademark Office.

In order to not pay any additional fees, these documents should be filed no later than Thursday, October 14, 1999. For your reference, we also are attaching a copy of an Assignment document that Mr. Roman previously signed relative to the provisional application on which the above-referenced patent application claims priority. In this Assignment, Mr. Roman agreed that he would

. . . cooperate with Assignee in the prosecution of said application and/or applications, execute, verify, acknowledge and deliver all such further papers, including applications for Letters Patent and for the reissue thereof, and instruments of assignment and transfer thereof, and will perform such other acts as Assignee lawfully may request, to obtain or maintain Letters Patent for said invention and improvement in any and all countries, and to vest title thereto in said Assignee, or Assignee's successors and assigns.
